OBJECTIVE

Automation Testing enthusiast with strong hands-on experience in Selenium WebDriver using Java. Skilled in designing and executing automated test scripts using TestNG and applying Object-Oriented Programming principles in test framework development. Strong understanding of SDLC, STLC, and Agile methodologies with practical exposure to Git-based version control and debugging practices. Seeking an entry-level Automation Tester role to build scalable and maintainable test automation solutions.

TECHNICAL SKILLS

Automation Tools: Selenium WebDriver, TestNG.
Framework Concepts: Page Object Model (POM), Data-Driven Testing, Cross-Browser Testing.
Programming: Java (Fundamentals, OOP, Collections, Exception Handling, Multithreading Basics).
Testing Concepts: SDLC, STLC, Functional Testing, Regression Testing, Smoke Testing, Test Case Design, Defect Reporting.
Web Automation Skills: XPath, CSS Selectors, Web-Driver Wait, Assertions.
Build & Version Control: Maven, Git, GitHub, IntelliJ IDEA.
Database: MySQL (SQL Queries, CRUD Operations).

PROJECTS

Amazon E-Store Web Automation Framework

Java | Selenium WebDriver | TestNG | Maven

- Designed and implemented automation framework using Page Object Model.
- Automated login, cart, and checkout workflows.
- Integrated TestNG for execution control and assertions.
- Applied explicit waits for dynamic element handling.
- Executed regression test suite and validated UI functionality.

Demo-QA Web Automation Framework

Java | Selenium WebDriver | TestNG | Maven

- Designed and implemented a Selenium automation framework using Page Object Model (POM) to automate Forms, Alerts, Frames, Web Tables, and Widgets modules.
- Utilized Web-Driver Wait, XPath, and CSS Selectors for dynamic element handling and reliable test synchronization.
- Automated alert handling, i-frame switching, window management, and drag-and-drop actions using Selenium APIs and Actions class.
- Executed regression and smoke test suites with TestNG assertions, maintained project dependencies using Maven, and managed source control using Git and GitHub.

EXPERIENCE

Technical & Aptitude Trainer

Terv Pro – Chennai | Apr 2025 – Present

- Delivered training on Core Java and problem-solving concepts.
- Guided learners in debugging techniques and structured programming practices.
- Applied OOP principles in real-time instructional environments.
- Strengthened analytical reasoning and communication skills aligned with software development workflows.

EDUCATION

Paavai Engineering College Tamil Nadu, India
Bachelor of Electronics and Communication Engineering, ***CGPA: 7.73*** Nov 2021 - June 2025

- Active Student Chapter member of Talent Quest for India, IETE, IEI, and GDSC, NSS.
- Authored articles on recent technologies and proposed in international conference.
- ***Headship:*** Part of TQI Team, Project management.
